

Knowledge Management Process Checklist

Process Overview

This checklist ensures systematic knowledge transfer and management when:

- Development systems are completed and handed over to operation and maintenance teams.
- ICT services are transferred to GovTech under civil service restructuring.
- New recruits join the division.
- Systems are under Annual Maintenance Contract (AMC) or not under AMC.

Knowledge Transfer Requirements Checklist

1. Documentation Requirements

#	Item	Priority	Status	Remarks
1.1	Software Requirement Specification (SRS) with detailed UI/UX wireframe	High	☐	
1.2	Functional and non-functional requirements documented	High	☐	
1.3	Software user manual available and up-to-date	High	☐	
1.4	Business process flow diagram	High	☐	
1.5	Software/package versions documented	High	☐	
1.6	Technology stacks documented	High	☐	
1.7	Database designs documented	High	☐	
1.8	Hosting details documented	High	☐	
1.9	Deployment documentation	High	☐	
1.10	BRD/FRS validated and signed off	High	☐	
1.11	System architecture document up-to-date	High	☐	

འབྲུག་གཞུང་འཕུལ་རྒྱུ་ལས་ཁུངས།
Government Technology (GovTech) Agency
Royal Government of Bhutan

A technologically advanced nation, with empowered citizens, and a thriving digital economy

2. Source Code & Version Control

#	Item	Priority	Status	Remarks
2.1	Latest and updated source code maintained in GIT	High	☐	
2.2	Source code verified by deploying in production	High	☐	
2.3	Code complies with standards (meaningful naming, commenting, modularity)	High	☐	
2.4	DRY principle followed (no code duplication)	High	☐	
2.5	Proper formatting and indentation	Medium	☐	
2.6	Error handling implemented	High	☐	
2.7	Code optimized (no unnecessary code/loops)	Medium	☐	
2.8	Proper logging implemented	High	☐	
2.9	Input validation implemented	High	☐	
2.10	Secure coding practices followed	High	☐	
2.11	No hard-coding practices	High	☐	
2.12	Version control properly implemented	High	☐	
2.13	Software versioning follows Major.Minor.Patch format	Medium	☐	
2.14	Main/master branch is current and issue-free	High	☐	

3. System Documentation & Configuration

#	Item	Priority	Status	Remarks
3.1	Deployment steps with minimum services list	High	☐	
3.2	Server configuration steps documented	High	☐	

འབྲུག་གཞུང་འཕུལ་རྒྱུ་ལས་ཁྲེེ།
Government Technology (GovTech) Agency
Royal Government of Bhutan

A technologically advanced nation, with empowered citizens, and a thriving digital economy

3.3	Backup configuration steps (application & database)	High	☐	
3.4	UML diagrams or table structure available	High	☐	
3.5	Data dictionary for database	High	☐	
3.6	Configuration files for iOS and Android apps	Medium	☐	
3.7	Pre and post-configuration files available	High	☐	
3.8	Backup configuration files available	High	☐	
3.9	Server timezone configured and verified	High	☐	
3.10	Time zone configurable for all systems and databases	Medium	☐	

4. User Support & Testing

#	Item	Priority	Status	Remarks
4.1	User Acceptance Testing (UAT) guidelines included	High	☐	
4.2	Bug resolution document with fixed bugs details	High	☐	
4.3	Frequently asked questions from business users	Medium	☐	
4.4	Basic troubleshooting guide available	High	☐	
4.5	Unit tests implemented and passing	High	☐	
4.6	Integration tests implemented and passing	High	☐	
4.7	System tests implemented and passing	High	☐	
4.8	UAT completed with joint effort (developer/vendor, product owner, business analyst)	Medium	☐	
4.9	Product owner UAT acceptance obtained	Medium	☐	

འབྲུག་གཞུང་འཕུལ་རྒྱུ་ལས་ཁྲུང་།
Government Technology (GovTech) Agency
Royal Government of Bhutan

A technologically advanced nation, with empowered citizens, and a thriving digital economy

5. Dependencies & Integration

#	Item	Priority	Status	Remarks
5.1	API integration via WoGs listed	High	☐	
5.2	Internal system dependencies documented	High	☐	
5.3	Integration types specified	High	☐	
5.4	All dependencies verified and functional	High	☐	

6. Feedback & User Interface

#	Item	Priority	Status	Remarks
6.1	Feedback feature implemented for citizen/government/public services	Medium	☐	
6.2	User can provide feedback while availing service	Medium	☐	
6.3	User can provide review after service completion	Medium	☐	
6.4	UI/UX is responsive on all devices	High	☐	

7. Access Control & Security

#	Item	Priority	Status	Remarks
7.1	Current user list reviewed and updated	High	☐	
7.2	New users added as needed	High	☐	
7.3	Obsolete users removed	High	☐	
7.4	Vendor access to production infrastructure removed	High	☐	
7.5	No superuser credentials used in system	High	☐	

འབྲུག་གཞུང་འཕུལ་རིག་ལས་ཁྲེེ།
Government Technology (GovTech) Agency
Royal Government of Bhutan

A technologically advanced nation, with empowered citizens, and a thriving digital economy

7.6	Security scanning/penetration test completed	Medium	☐	
7.7	Audit logging implemented and verified	High	☐	
7.8	Firewall configured and rules documented	High	☐	
7.9	Firewall list shared with DSO&M	High	☐	

8. Performance & Operations

#	Item	Priority	Status	Remarks
8.1	System meets minimum 5000 TPS benchmark	High	☐	
8.2	System responds within 30 seconds for any request	High	☐	
8.3	Backup schedule configured and verified	High	☐	
8.4	Full and incremental backup schedule in place	High	☐	
8.5	Backed up database tested for recovery	High	☐	
8.6	Monitoring tools configured and registered	High	☐	
8.7	Emergency contact focal list verified	High	☐	

9. DevOps & Deployment

#	Item	Priority	Status	Remarks
9.1	Software compatible with containerization	Medium	☐	
9.2	CI/CD pipelines in place for staging/UAT/Production	Medium	☐	
9.3	Deployment and rollback documents available	High	☐	
9.4	Vendor can deploy to UAT after passing tests	Medium	☐	

འབྲུག་གཞུང་འཕུལ་རྒྱུ་ལས་ཁྲུང་།
Government Technology (GovTech) Agency
Royal Government of Bhutan

A technologically advanced nation, with empowered citizens, and a thriving digital economy

9.5	Technology/software using latest long-term support versions	Medium	☐	
9.6	All packages/libraries free from security vulnerabilities	High	☐	
9.7	No technology/software end of support within 5 years	Medium	☐	

10. Compliance & Standards

#	Item	Priority	Status	Remarks
10.1	Complies with Software Delivery Standards	High	☐	
10.2	Exception documented for existing/old systems	Medium	☐	
10.3	Complies with other DSO&M standards	High	☐	
10.4	Development team sign-off obtained	Medium	☐	
10.5	QA team sign-off obtained	Medium	☐	
10.6	Business owner sign-off obtained	Medium	☐	

11. Service Catalog Information

#	Item	Priority	Status	Remarks
11.1	Application Type documented	High	☐	
11.2	Description (Application/System/APP)	High	☐	
11.3	System URL documented	High	☐	
11.4	System Owner identified	High	☐	
11.5	System Status documented	High	☐	
11.6	Platform information	High	☐	

འབྲུག་གཞུང་འཕུལ་རྒྱུ་ལས་ཁུངས་
Government Technology (GovTech) Agency
Royal Government of Bhutan

A technologically advanced nation, with empowered citizens, and a thriving digital economy

11.7	System hosting location	High	☐	
11.8	Domain Focal assigned	High	☐	
11.9	Contact Number & Email ID of Focals	High	☐	
11.10	AMC status and expiry date	High	☐	
11.11	Vendor information	High	☐	
11.12	Documentation status verified	High	☐	
11.13	Source code availability confirmed	High	☐	
11.14	System criticality assessed	High	☐	
11.15	Existing IT Focal identified	High	☐	
11.16	GovTech DSO&M Focal assigned	High	☐	
11.17	SSL Issuance Date documented	Medium	☐	
11.18	SSL Expiry Date documented	Medium	☐	

Priority Legend

- **High:** Must be completed for full DSO&M support
- **Medium:** Should be completed; DSO&M will provide support within 5 working days with assistance from other parties

Notes

- All '**High**' priority items must be completed when undertaking systems by DSO&M to receive full support
- For partially completed checklists, DSO&M will provide support within 5 working days with assistance from involved parties
- Knowledge transfer sessions should be conducted with respective vendors for AMC systems and with previous system focals for non-AMC systems
